

C_12735_Anlage

Änderung in I_Entitlement_Management.yaml

Anpassung der Conditions-Tabelle in description zu setEntitlementPSV2 (POST/epa/basic/api/v2/ps/entitlements):

alt: (HSM verification entfällt, bzw. wird ersetzt)

Conditions	Status code	Error code	Remarks
----- ----- ----- -----			
Successful operation	201		even if an existing entitlement is kept due to longer validity
Request does not match schema	400	malformedRequest	
Requestor role is not in the list of allowed usergroups	403	invalidOid	
HSM verification failed	403	invalidToken	
Health record does not exist (UNKNOWN) or is in state INITIALIZED	404		
noHealthRecord			
Health record is in state SUSPENDED or INACCESSIBLE	409	statusMismatch	(see 'Retry interval')
request claims _actorId_ and _actorId_ is referenced by a Blocked User Policy assignment	409	requestMismatch	
Rate limiting	423	locked	
to many failed attempts	423	locked	_kvnr_ check limit
Any other error	500	internalError	(see 'Retry interval')

neu:

Conditions	Status code	Error code	Remarks
----- ----- ----- -----			
Successful operation	201		even if an existing entitlement is kept due to longer validity
Request does not match schema	400	malformedRequest	
Requestor not authorized	403	invalAuth	no user session with valid ID-Token available
Requestor role is not in the list of allowed usergroups	403	invalidOid	
Token verification failed	403	invalidToken	
Audit evidence was already used before	403	tokenReuse	
request claims _actorId_ and _actorId_ is referenced by a Deny List assignment	409		
requestMismatch			
Health record does not exist (UNKNOWN) or is in state INITIALIZED	404		
noHealthRecord			
Health record is in state SUSPENDED or INACCESSIBLE	409	statusMismatch	(see 'Retry interval')
request claims _actorId_ and _actorId_ is referenced by a Blocked User Policy assignment	409	requestMismatch
